

Implementation Plan

2016-2017: Why? Alignment with Program Commitments

IV. Student Motivation:

1. We will continue to foster safe schools and a secure climate that will support learners to participate, take risks, and showcase their talents.
5. We will continue to provide teachers and administrators with ongoing professional development and resources to support a variety of learners, encouraging their strengths and providing support for their challenges.
6. We will continue to explore emerging technology to engage all learners.
7. We will continue to provide for the development of the whole child by utilizing all available school community resources.

Rationale

The Hillview faculty and staff are dedicated, life-long learners who strive to grow as professionals and continually work to make this the best possible learning community for our students. We utilize instructional technology to enhance our curricular programs and instructional delivery. We also meet as a Student Support Team to brainstorm ideas for supporting students' academic, social, emotional and behavioral needs. Instilling positive character values, including kindness, respect, honesty and responsibility, is a daily focus at Hillview. Character education programs and bully proof partnership initiatives are an integral part of our curriculum, instruction and school community. These safe school efforts will continue in the future with all staff participation, with the BPT and with the Hillview Bully Proof Partnership Team.
