

What's going on in 2nd Grade?

Week of August 1st-August 4th

In math we are still focusing on single and double digit subtraction and addition. We played a game of mix pair share to practice those skills! We also worked on some word problems!

In ELA we have been learning how to create our own story! Each day we work on reading and writing second grade sight words to help us become better readers! The kids even played a game of sight word bingo to practice. We have been improving our reading skills on Raz Kids as well. We have also been working on identifying nouns, verbs and adjectives

It was a pleasure working with your kids and we loved having them all in the program!
