

### **Week 3 School News**

Wow another week has flown by! We can't believe we finished our third week. Your children have been working so hard and we hope they are having fun while learning.

#### **Here is a look at our week:**

We focused on the letters: LI Yy li Dd. They are working on identification, sound and a word that starts with that letter. Please continue to have them practice writing the letters and finding words that start with them at home.

In math we worked on counting to 30, number identification to 10, one to one correspondence and shapes.

For our project based activities the students are making observations of their watermelon plant and logging them into their Seed to Sprout Observation Journal. They are also watering and taking care of their watermelon plant on a daily basis. They are having so much fun watching their plant grow. We might have some future scientists and gardeners in our classroom.

Please continue to work on having them practice writing their first and last name at home. Focus on Uppercase letter for the first letter and Lowercase for the remaining letters.

Please pack a healthy snack everyday and water bottle with a sports lid to prevent spills and help with independence along with checking and sending back in their red folder each day.

If you have any questions or concerns, please let us know.

Have a great weekend,  
Mrs. Parini and Mrs. Blodgett
