

LANCASTER CENTRAL SCHOOL DISTRICT LMS Math Department Goals 2012-2013

Goal Area: Assessment

Department Objective: Teachers will create new assessment materials to align with the CCLS, including the use of calculators in the classroom

What?	How?	When?	Who?	Who?	Accomplished?
Strategy	Major Tasks / Activities	Dates - Begin/End	1. Responsibility	2. Workers	Evidence of Completion/Success
Teachers will continue to work on improving basic skills and thus improve students scores on benchmark assessments	Teachers will continue to emphasize basic skill computation to improve scores for AIMSweb through the use of skills practice at the beginning of class.	6-2012 to 6-2013	Teachers	Teachers	Improved scores on benchmarks
Teachers will create assessments in alignment with CCLS and practice these assessment with calculators	Teachers will practice various types of questions in each unit for the NYS Assessment at both grade levels using calculators.	6-2012 to 6-2013	Teachers	Teachers	Improved scores on NYS Assessments

LANCASTER CENTRAL SCHOOL DISTRICT LMS Math Department Goals 2012-2013

Goal Area: Guaranteed and Viable Curriculum

Department Objective: Teachers will develop unit lessons and activities in alignment with the CCLS

What?	How?	When?	Who?	Who?	Accomplished?
Strategy	Major Tasks / Activities	Dates - Begin/End	1. Responsibility	2. Workers	Evidence of Completion/Success
Using the unit outline developed with BOCES personnel, teachers will develop lessons and activities that address the standards in each unit.	A new math curriculum was developed in the spring for LMS using the CCLS. Teachers have copies of the units in this curriculum with sample tasks that were created by DCA at BOCES. Supplemental materials were also provided using the Engage NY website and the Sample Tests for grades 7 and 8. Using these resources and any others we may be able to acquire, the teachers will create lessons that align to the curriculum.	6-2012 to 6-2013	Teachers Administrators BOE (possibly) BOCES personnel for support	Teachers	New units with notes, lessons, homework and activities.
	Resources from Engage NY, Math Fun Sheets, Math Bits and other standards based websites will be evaluated and utilized. Texts from publishing companies will also be evaluated and possibly purchased. Developing these units will be ongoing throughout the year as new materials become available from NY state.
