

Lancaster Central School District  
Survey on School Climate and Student Social Emotional Health

Our district has partnered with the University at Buffalo Alberti Center for Bullying Abuse Prevention for several years. In collaboration, we are administering a survey to our students (grades 4-12), teachers, and families to better understand perspectives on our school climate, school engagement, and stressors during this challenging and unique year. Both the parent/guardian and the student surveys are voluntary, but we hope you will consider taking the time to complete the survey and/or providing consent for your child(ren).

Link onto Parent/Guardian Survey:

Please click on the link below to complete the survey for parents/guardians. The survey should take no more than 20 minutes to complete. All parents and guardians are welcome to complete the survey. Please complete the survey by February 19, 2021.

Parent Consent for Student (4th to 12th grade) Survey:

The student survey will include questions on the positive and negative impact of the COVID-19 pandemic on their daily life, perceptions of the school environment, exposure to cyberbullying, and overall well-being. Your child may choose not to answer any questions he or she does not want to answer. The survey should take no more than 30 minutes for your child to complete. If you provide consent for your child to complete the survey, he/she will complete the survey during an asynchronous “at home” day via joining a dedicated Google Classroom.

Please review the survey (see attached document) prior to providing consent. If you wish to provide consent for your child(ren), please complete the form by Monday, February 22, 2021.
