

## Instruction

Subject: District Sharing of Library Resources

Each of the Lancaster Central School District school libraries is an integral component of the total District library program and is not an entity in and of itself.

All librarians are guided by the education philosophy, objectives and procedural plan.

Budget funds are allocated on the basis of the District program of uniform excellence and the individual library's role in that program.

Each library collection is considered a segment of the total District library collection. All materials are shared; all materials are made available upon request to any school library in the District.

Adopted: 6/25/12
